

PRODUCTS FOR PERFECTLY INTEGRATED AUTOMATION

www.multiwaycontrol.com

LINE CARD PRODUCTS

CONTROL DEVICES

Pushbuttons	Pilot Lights	Pendant Systems
Time Delay Relays	Solid State Relays	Foot Switches
Control Relays		

METERING

Analogue and Digital Meters	Multifunction Meters	Current Transformers
Power Factor Controller	Process Digital Panel Meter	

POWER DISTRIBUTION

Disconnect Switch	Plugs, Sockets and Receptacles	Power Supplies
Control Transformer	Surge Suppression device	Terminal Blocks

SWITCHGEAR

Air Circuit Breaker	Molded Case Circuit Breaker	Miniature Circuit Breaker
Earth Leakage Relays	Fuse Switch Disconnectors	Fuses and Fuse Holder

MOTOR PROTECTION AND CONTROL

Contactors	Electronic motor protection relays	DC contactors
Overload relays	Solid state relays and contactors	Motor protection circuit breakers
Soft starters		

AUTOMATION AND CONTROL

Programmable Logic Controllers (PLC)	Smart Relays	Distributed I/O Systems
	Motion Controllers and Servo Drives	Operator Panels and Touch Screens (HMI)
Industrial PC	Network Switches	Gateway Converter

SAFETY & SIGNALING

Safety Light Curtain	Safety Interlock Switches	Safety Light Curtain
Safety Controller	Safety Limit Switches	Pull cord switches
Alarming and Signaling	Stack Light	Beacon
Horn	Strobe Light	Strobe Light with Horn
Buzzer with Flasher		

WIRES & CABLES

UL1007 MTW wire	UL1015 MTW wire	STOW Oil and water resistant Cables
SJTOW Oil and water resistant Cables	SOOW Oil resistant Cables	SJOOW Oil resistant Cables
Multiconductor Cables	Tray Cables	Rubber Wires & Cables

SWITCHING & SENSING

Limit Switches	Pressure Switches	Photoelectric Sensors
Proximity Sensors	Temperature controllers	Level Transmitters
Ultrasonic Sensors	Radar Sensors	Guided Wave Sensors
Liquid Level Switches	Level Controllers	Level Switches
Flow meters	Flow Sensors	Flow Switches
Flow Transmitters	Differential Pressure Transmitters	Pressure Switches
Air Flow Switches	Carbon Dioxide Transmitters	

LINE CARD MANUFACTURERS

SERVICES

UL508A Control Panel Manufacturing

We offer a full array of control panel manufacturing services, from industrial automation for large batch orders to custom fabrication for unique applications. Regardless of the product or service, our commitment to excellence in quality and service means that We'll deliver your panels to the right specification, when you need them, at the right value.

Engineering & Design

With the increasing intricacy of machinery and process systems, the importance of having Well-designed, efficient and reliable control systems is essential. We offer a full array of engineering and design services with expert design software like EPLAN and AutoCAD. Engineering staff is able to provide assistance on individual elements of the design and manufacturing process or on a turn-key system solution for design through installation.

System Architecture

Combining creativity and a sense of value, our engineers are experts at designing the right system for each application. We tailor the scope of each project to provide the level of design detail appropriate to the application. Our control system design package may include PLC and HMI platforms, Batch Control, SCADA, RTUs and Redundancy.

System Integration

We approach system integration systematically, viewing each step in the process as essential to creating a unified, Well-designed control system. Our system engineers and manufacturing technicians have a long history in selecting, configuring, and assembling components. Working together, they are able to work through the challenges of component connectivity and compatibility to create control systems that are functional, intelligent and able to stand the test of time.

Installation & Start Up

Without correct installation and testing, even the best-designed control systems risk not performing properly. Our installation department is staffed by highly qualified journeyman and master electricians who work onsite until the complete system - hardware and software - is operating to our customer's satisfaction. Services include Instrumentation, Testing, Training and Documentation.
